VoxAid commands cheat sheet for Google Chrome

Notes:

It is useful to be aware of the default built-in Dragon menu, keyboard and mouse commands.

It is best practice to pause before and after dictating command phrases.

Where necessary, VoxAid commands can be trained to recognise your voice | Help is available from the support page on the VoxAid.co.uk website.

VoxAid command phrases include natural language variations to perform tasks.

Address Bar & Tabs

Command(s) you can say	Description
